ALASKA

ADVISORS • ACCOUNTANTS • AUDITORS

ALASKA HAS A BROAD-RANGING VIEW ON THE WORLD.

We do not only limit ourselves to giving advice, but also organise lectures and publish articles on the most topical subjects. We can count on a wide network of offices and motivated staff members who can handle any assignment. In this way, the international association of independent accountancy firms **PrimeGlobal** offers us the opportunity to appeal to foreign expertise in our globalised world.

Thanks to all this knowledge and experience, we can handle all target groups. Not only entrepreneurs, liberal professionals, SMEs and large companies, but also the world of the non-profit sector has no secrets for us.

In addition, Alaska always uses cutting-edge IT tools.
